

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. NOTE.

This library is the accumulation of many years. The nucleus of it was the purchase of White's Arithmetic and Robbins' "Journal" from a book auctioneer's wagon, on a public holiday, in Pittsfield, Mass., sixty-five years ago. It was my first possession. Dibdin never enjoyed a keener appreciation of ownership. During all these years since I have been a buyer of books I have met in the auction room many distinguished collectors. Among these were Dr. Joseph C. Cogswell, to whom New York is indebted for suggesting to John Jacob Astor the value to the city of a great public library, Mr. Astor was pleased with the idea, and appointed Mr. Cogswell the organizer of the institution and purchaser of books; John R. Bartlett, librarian of the Brown Library of Providence, R. I.; William Gowans, John Allan, E. G. Squier, Henry C. Murphy, George P. Philes, Thomas W. Field, William Menzies, J. W. Bouton, Rufus W. Griswold, E. B. Corwin, Henry Austin Brady, J. Carson Brevoort, Rev. Dr. Chapin, Daniel Embury, George Folsom, Dr. J. W. Francis, C. W. Frederickson, J. B. Moreau, Richard Grant White, Wm. C. Noyes, Professor Anthon and many others.

Among the auctioneers, who of the early times does not remember Royal Gurley, John Keese, Andrew M. Merwin and Joseph Sabin? Of all the wits, Keese surpassed any man I ever met. His language was sharp-cut and to the point. Woe to the man that fell under the lash of his satire. Wm. Gowans always came in for his share. He never made large bids, and when he reached the limit he would shake his head. "Don't shake your head," Keese would cry out, "for there's nothing in it." A collection of Keese's running remarks at the sale of books would be a rich contribution to American literature. His criticisms were always to the point and often valuable.

Sabin's knowledge of books, especially Americana, was greater, perhaps, than Keese's. His brochure "Bibliography of Bibliography, or a Handy Book about Books," is a valuable little manual to the collector.

Philes' "Philobiblion, a Monthly Bibliographical Journal," contained critical notices of and extracts from rare, curious and valuable old books. Publications like the above have almost ceased. They are greatly needed by the lover and buyer of books.

But I need not enlarge. If the purchasers of my library get as much pleasure as I have received from its possession they will be richly rewarded.

CHARLES E. WEST.

Lipsiæ

A very interesting and valuable collection, containing essays, dissertations, etc., on a great variety of subjects by the most learned men of the time. De Bure says: "It is regarded as the best journal up to the time of its conclusion—it is to be wished that it had always served as a model for periodical works which followed it." The first volume has signature of J. Mitford, and a pen and ink index on fly-leaf.
